- ✓ **Stainless steel surfaces** prevent contamination from hazardous (lead) materials
- ✓ **¼-turn syringe pig (UDS) twist-off** reduces handling time and radiation exposure
- ✓ **Ultra-robust design and hardware** ensure an extended lifespan
- ✓ **Hygienic UDS units** are easy to clean and dishwasher-safe
- ✓ **Reduced case size** for optimal space efficiency

Stackable case with refined design
provides durable protection
and visual appeal

Specially designed hinge
ensures durability for long-lasting
performance, eliminating the need for
an intrusive lanyard when opened

Polished stainless steel components
make cleaning easy and act as a barrier
to the foam and lead shielding inside
